***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 13, 2008 has been entered.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant is claiming in independent claims 1, 3, 5 and 6, "continuously monitoring a guard period of each received OFDM frame for predefined inter-leaver synchronizing pattern at periodic frame intervals."

Applicant discloses in the Abstract and paragraphs 0008, 0012, 0023, 0045 and 0047 monitoring data streams, received frames and OFDM frame, but

Art Unit: 2619

there is not support in the disclosure for “continuously monitoring a guard period of each received OFDM frame for predefined inter-leaver synchronizing pattern at periodic frame intervals.”
